

The Line Foreman is a working foreman responsible for providing field supervision over crews involved in the installation, maintenance, and repair of underground and overhead electric distribution systems and service lines, transformers, meters, metering equipment, and related equipment.

Key Responsibilities:

- Facilitate installation of all single-phase and three-phase applications in the electrical distribution system. Oversee and install overhead, underground conductors, poles, streetlights, wiring and associated materials. Build and connect transformer banks, set pad mounts, and hang transformers.
- Enter easements not accessible by trucks, climb poles, pull wire, and enter/exit ditches, and heavy vegetation in rights-of-way.
- Operate utility equipment including but not limited to bucket truck, digger truck, trencher, chain saws, tree pruners, chippers, backhoe, and other equipment.
- Install underground primary and secondary. Install street light poles, streetlights, and wiring.
- Train, oversee, and develop workers in repair, installation, and safety procedures at the direction of management.
- Troubleshoot electric distribution problems. Work 24/7 on-call rotation and extended hours as needed, including nights and weekends.
- Operate substation equipment and sectionalizing devices.
- Plan and facilitate work for the line crew and other daily job functions.
- Read, translate, and describe work order drawings, maps, and processes.
- Assist other departments and perform other related duties as assigned.

Qualifications:

High school diploma or equivalent; a degree or certification in linework or electrical operations.

- Proven experience in electric distribution systems.
- Class A CDL.
- Leadership and supervisory skills.
- Journeyman level classification.
- Excellent communication and interpersonal abilities.
- Attention to detail and the ability to work in a fast-paced environment.
- Strong problem-solving and decision-making skills.
- Knowledge of safety regulations and best practices.

Physical Requirements:

- Ability to lift and carry heavy objects.
- Stand, walk, and move around in outdoor settings for extended periods.

Work Environment:

The Lineman Foreman primarily works in a field setting, with other time in an office environment. This role may require extensive overtime, especially during peak periods or emergencies.
